Chairman's Statement

I am pleased to present the Half-Year Report for Mobeus Income & Growth VCT plc ("MIG") covering the six month period ended 30 June 2018.

Overview

The six month period has produced a satisfactory return for shareholders with a positive income return as well as a small net positive of unrealised gains on portfolio companies and the receipt of some deferred income on realisations in a previous year. The Board is pleased to note the successful completion of the fundraising activity during the period which raised gross funds of £25 million.

The rate and level of new investment has been good with four new growth capital investments and three follow-on investments into existing growth portfolio companies completed so far in 2018. Further details of these investments are included under 'Investment Portfolio' below and in the Investment Review on pages 5 - 6.

These investments reflect the focus on providing growth capital to younger and smaller companies in accordance with the revised Investment Policy approved by shareholders in 2016. By way of reminder, this revised Policy was required to comply with the VCT measures introduced by the Finance (No.2) Act 2015 in November of that year.

More recently, the enactment of the Finance Act 2018 on 15 March 2018 has resulted in further changes to the VCT Scheme (see 'Industry and regulatory developments' below). Your Board does not believe that these further changes will materially affect the Company's existing Investment Policy and strategic objectives.

Performance

At 30 June 2018, your Company was ranked 8th out of 40 VCTs, over the last five years, in the Association of Investment Companies' ("AIC") analysis of NAV Cumulative Total Return.

The Net Asset Value ("NAV") Total Return was 1.3% for the period (compared with 6.0% for the same period last year; a period which reflected the imminent profitable disposal of Entanet).

Fundraising

On 6 September 2017, the Company launched an Offer for Subscription to raise up to £25 million in aggregate. Demand for the Offer was strong and the Company raised the full amount by 13 March 2018, of which £7.82 million of net funds were raised in the current period. The Board would like to thank all new investors and shareholders, their advisers and intermediaries, for their support.

Dividends

On 17 May 2018, following shareholder approval at the annual general meeting, the Company paid a final dividend of 3.00 pence per ordinary share, in respect of the financial year ended 31 December 2017.

The Board has declared an interim capital dividend of 2.00 pence per share in respect of the current financial year, payable on 21 September 2018 to shareholders on the register on 24 August 2018. This dividend will be paid out of the Company's Special Distributable Reserve. Once paid, this will bring cumulative dividends paid per share since the launch of the Company to 113.80 pence (30 June 2017: 104.80 pence) per share.

Your Board is confident of meeting the 4.00 pence per share annual dividend target in respect of the current financial year. The gradual move of the portfolio to growth capital investments may make it more difficult to achieve in future financial years without recourse to the Company's reserves.

Investment Portfolio

Overall the performance of the investment portfolio has been satisfactory in the current environment. The portfolio achieved a gain of £0.78 million (1.9% of the opening value) during the first half of the year and was valued at £45.35 million at the period end (30 June 2017: £49.51 million). The six month period experienced notable increases in the valuations of EOTH, MPB Group and CGI Creative Graphics but the portfolio also saw significant valuation falls over the period for Motorclean, Wetsuit Outlet and Veritek Global.

During the period three new investments and three follow-on investments were made at a total cost of £3.66 million (analysed on pages 5 and 6 and explained within Note 9).

These were:

- Proactive Investors – a provider of investor media services and research.
- Super Carers – an online platform connecting people seeking care.
- Hemmels – a classic car restoration business.
- MPB Group (follow-on) – an online marketplace for used camera and video equipment.
- Tapas Revolution (follow-on) – a leading Spanish restaurant chain in the casual dining sector.
- MyTutor (follow-on) – a digital marketplace connecting people seeking online tutoring.

After the period end, a new investment of £0.57 million was made into Rota Geek, a provider of workforce management software.

The company received cash proceeds of £0.61 million during the period, comprising loan stock repayments from investee companies and deferred consideration arising from realisations which occurred in a previous year.

Further information on the portfolio can be found in the Investment Review on pages 5 - 9.

Revenue account

The net revenue return for the period was £0.87 million compared to £1.15 million recorded this time last year. This is due to two principal factors: firstly, loan interest has decreased, due to the realisation of Entanet and Gro-Group whose loans paid sizeable amounts of loan interest, alongside a provision against loan interest receivable from another portfolio company; secondly, higher net assets and numbers of shareholders, arising from the funds raised under the Offer for Subscription, have resulted in increased VCT expenses, mainly Investment Adviser fees.

Industry and regulatory developments

As mentioned in my Overview above, a number of additional changes to the VCT Scheme were introduced with the enactment of the Finance Act 2018 on 15 March 2018. These changes were designed to exclude tax-motivated

investments where capital is not at risk (that is, principally seeking to preserve investors' capital) and to encourage VCTs to put their money to work faster. They also place further restrictions on the way investments may be structured. Further details of these changes are set out within the Summary of VCT regulation on page 4.

Share buybacks

During the period, the Company bought back for cancellation a total of 410,037 Ordinary shares amounting to 0.4% of its issued share capital at the start of the year. These were bought back at approximately a 10% discount to the Company's latest announced NAV, in accordance with the Company's buyback policy. The reason the Company makes market purchases of its own shares is principally to enhance the liquidity of the Company's shares and also to seek to manage the level and volatility of the discount to NAV at which the Company's shares may trade.

Liquidity

Cash or near cash resources held by the Company as at 30 June 2018, including the liquidity held by companies preparing to trade, was £32.06 million or 42.5% of net assets. After the period end, following the investment into Rota Geek and the payment of the interim dividend in September 2018, the pro forma level of liquidity will be £29.33 million or 40.1% of net assets.

The VCT continues to hold its cash in a selection of money market funds with AAA credit ratings and in a number of deposit accounts, diversified among well-known financial institutions across a range of maturities.

Shareholder event

The Investment Adviser held its eighth annual shareholder event on 30 January 2018. As in previous years, the event was well received by those shareholders who attended. The next event will be held on 5 February 2019, again at the Royal Institute of British Architects in Central London. The programme will contain highlights from the performance of the Mobeus VCTs as well as presentations by representatives of portfolio companies.

Recently, shareholders have received further details and an invitation to the event with their copy of the Mobeus VCT Newsletter.

Outlook

Your Board considers that your Company is well positioned to take advantage of the strong demand for growth capital investments, although entry valuations can be quite full for the most attractive opportunities. The portfolio has a solid foundation of investments made under the previous MBO strategy, the majority of which are mature, generating operating profits and providing attractive income returns. We expect the current trend for follow-on investments into new and existing growth capital portfolio companies to continue in the foreseeable future until such time as these growth investments have achieved scale and sustainable earnings.

The recent successful fundraising will provide the Company with sufficient funds to meet its cash needs and to continue the current investment rate in the medium term. Your Board is also pleased to note that the Investment Adviser continues to expand and strengthen its investment team to source investments that complement the portfolio.

Finally, I would like to thank all of our shareholders for their continuing support.

Investment Policy

The investment policy is designed to meet the Company's objective.

Investments

The Company invests primarily in a diverse portfolio of UK unquoted companies. Investments are made selectively across a number of sectors, principally in established companies. Investments are usually structured as part loan stock and part equity in order to produce a regular income stream and to generate capital gains from realisations.

There are a number of conditions within the VCT legislation which need to be met by the Company and which may change

from time to time. The Company will seek to make investments in accordance with the requirements of prevailing VCT legislation.

Asset allocation and risk diversification policies, including the size and type of investments the Company makes, are determined in part by the requirements of prevailing VCT legislation. No single investment may represent more than 15% (by VCT tax value) of the Company's total investments at the date of investment.

Liquidity

The Company's cash and liquid funds are held in a portfolio of readily realisable

interest bearing investments, deposit and current accounts, of varying maturities, subject to the overriding criterion that the risk of loss of capital be minimised.

Borrowing

The Company's articles of association permit borrowings of amounts up to 10% of the adjusted capital and reserves (as defined therein). However, the Company has never borrowed and the Board would only consider doing so in exceptional circumstances.

Summary of VCT regulation

To maintain its status as a VCT, the Company must meet a number of conditions, the most important of which are that:

- the Company must hold at least 70%¹, by VCT tax value², of its total investments (shares, securities and liquidity) in VCT qualifying holdings, within approximately three years of a fundraising;
- all qualifying investments made by VCTs after 5 April 2018, together with qualifying investments made by funds raised after 5 April 2011, are in aggregate required to comprise at least 70% by VCT tax value in "eligible shares", which carry no preferential rights (save as may be permitted under VCT rules)³;
- no investment in a single company or group of companies may represent more than 15% (by VCT tax value) of the Company's total investments at the date of investment;
- the Company must pay sufficient levels of income dividend from its revenue available for distribution so as not to retain more than 15% of its income from shares and securities in a year;

- the Company's shares must be listed on a regulated European stock market;
- non-qualifying investments can no longer be made, except for certain exemptions in managing the Company's short-term liquidity; and
- VCTs are now required to invest 30% of funds raised in an accounting period beginning on or after 6 April 2018 in qualifying holdings within 12 months of the end of the accounting period.

To be a VCT qualifying holding, new investments must be in companies:

- which carry on a qualifying trade;
- which have no more than £15 million of gross assets at the time of investment and £16 million immediately following investment from VCTs;
- whose maximum age is generally up to seven years (ten years for knowledge intensive businesses);
- that receive no more than an annual limit of £5 million and a lifetime limit of £12 million (for knowledge intensive companies the lifetime limit is £20 million, and the annual limit is £10 million), from VCTs and similar sources of State Aid funding;

- that use the funds received from VCTs for growth and development purposes;

In addition, VCTs may not:

- offer secured loans to investee companies, and any returns on loan capital above 10% must represent no more than a commercial return on the principal; and
- make investments that do not meet the new 'risk to capital' condition (which requires a company, at the time of investment, to be an entrepreneurial company with the objective to grow and develop, and where there is genuine risk of loss of capital).

¹ For accounting periods beginning on or after 6 April 2019, this percentage will increase to 80%.

² VCT tax value means as valued in accordance with prevailing VCT legislation. The calculation of VCT tax value is arrived at using tax values, based on the cost of the most recent purchase of an investment instrument in a particular company, which may differ from the actual cost of each investment shown in the Investment Portfolio Summary on pages 7 - 9.

³ The requirement for VCTs to hold at least 30% of qualifying investments in "eligible shares" (broadly ordinary equity) from funds raised prior to 6 April 2011 has been withdrawn.

Summary of further changes to VCT regulation, enacted in 2018, yet to take effect.

From 6 April 2019:

- the period for reinvestment of proceeds on disposal of qualifying investments will increase from 6 to 12 months.

For the Company's accounting year beginning on 1 January 2020:

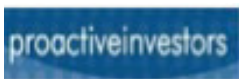

- the Company must hold at least 80% by tax value of its total investments in VCT qualifying holdings.

Please note that the above summary is not exhaustive.

Investment Review

New investments in the period

A total of £1.68 million was invested into three companies during the six months under review, comprising new investments into Proactive Investors, Super Carers and Hemmels as detailed below:

	Company	Business	Date of investment	Amount of new investment (£m)
	Proactive Investors	Investor media services	January / June 2018	0.50

Proactive Investors specialises in up-to-the-minute multi-media news provision, events organisation, digital services and investor research. Proactive provides breaking news, commentary and analysis on hundreds of small-cap listed companies and pre-IPO businesses across the globe, 24/7. The investment will enable Proactive to expand its services into the US market, which is the largest global market for investor media services in the world. The company's unaudited accounts for the year ended 30 June 2017 show turnover of £3.99 million and a profit before interest, tax and amortisation of goodwill of £0.53 million.

	SuperCarers	Online care provision platform	March 2018	0.58
-----------------------------------------------------------------------------------	-------------	--------------------------------	------------	------

Super Carers provides an online platform connecting people, typically family members seeking care for their elderly parents, with experienced independent carers. Carers and care-seekers manage care directly, thus reducing the administrative burden and the need for care managers, enabling care to be delivered with greater flexibility and more cost effectively. The company's unaudited accounts for the year ended 31 March 2017 show revenues of £0.18 million and a loss before interest, tax and amortisation of goodwill of £0.72 million.

	Hemmels	Classic car restoration	March 2018	0.60
-------------------------------------------------------------------------------------	---------	-------------------------	------------	------

Hemmels commenced trading in September 2016 and specialises in the sourcing, restoration, selling and servicing of high value classic cars, currently focusing on classic Mercedes-Benz. The investment will enable Hemmels to proceed with its expansion plans and secure sufficient stock. The company's accounts for the year ended 31 December 2017 have not yet been finalised.

Further investments in existing portfolio companies in the period

The Company made further investments totaling £1.98 million into three existing portfolio companies during the period under review, as detailed below:

	Company	Business	Date of investment	Amount of new investment (£m)
	MPB Group	Online marketplace for used camera and video equipment	February 2018	0.43

MPB is Europe's leading online marketplace for used camera and video equipment. Based in Brighton, its custom-designed pricing technology enables MPB to offer both buy and sell services through the same platform and offers a one-stop shop for all its customers. Having expanded into the US (opening a New York office) and German markets as part of the initial VCT investment round, this follow on investment, alongside funds provided by the Proven VCTs, is to support its continued growth plan. Having doubled its sales over the last year, this investment will give the company sufficient capital to achieve its next phase of expansion. The company's latest audited accounts for the year ended 31 March 2017 show turnover of £13.20 million and a loss before interest, tax and amortisation of goodwill of £0.47 million.

Investment Review

	Company	Business	Date of investment	Amount of new investment (£m)
	Tapas Revolution	Restaurant chain	March 2018	0.56

Based in London, Tapas Revolution is a leading Spanish restaurant chain in the casual dining sector focusing on shopping centre sites with high footfall. Having opened its first restaurant in Shepherd's Bush Westfield, with the support of the initial VCT investment in 2017, the business now operates six established restaurants. This follow on investment is to finance the opening of several new locations around the UK. The company's latest audited accounts for the year ended 29 October 2017 show a turnover of £5.84 million and loss before interest, tax and amortisation of goodwill of £0.68 million.

	My Tutorweb	Online tutoring	May 2018	0.99
-----------------------------------------------------------------------------------	-------------	-----------------	----------	------

My Tutorweb Limited is a digital marketplace that connects school pupils who are seeking private one-to-one tutoring with university students. The business is satisfying a growing demand from both schools and parents to improve pupils' exam results to enhance their academic and career prospects. This investment supports an opportunity to grow My Tutorweb's market presence and drive technological development within the company. The company's latest unaudited accounts for the year ended 31 December 2017 show turnover of £0.56 million and a loss before interest, tax and amortisation of goodwill of £1.40 million.

New investment post period-end

	Company	Business	Date of investment	Amount of new investment (£m)
	Rota Geek	Workforce management software	August 2018	0.57

Rota Geek is a provider of cloud-based enterprise software that uses data-driven technologies to help predominantly large retail and leisure organisations predict and meet demand to schedule staff effectively and fairly. This investment will be used to further technology development and grow sales from enterprise (i.e. substantial) clients.

Realisations in the period

There have been no realisations during the period under review. £0.18 million was received as deferred consideration arising from the realisations of Gro-Group and Tessella in a previous year.

Loan stock repayments

Loan stock repayments totalled £0.43 million from Plastic Surgeon (formerly TPSFF) and MPB Group during the period under review.

Statement of the Directors' Responsibilities

Responsibility statement

In accordance with Disclosure and Transparency Rule (DTR) 4.2.10, Clive Boothman (Chairman), Bridget Guérin (Chairman of the Nomination & Remuneration and Management Engagement Committees), and Catherine Wall (Chairman of the Audit Committee), being the Directors of the Company, confirm that, to the best of their knowledge:

- (a) the condensed set of financial statements, which has been prepared in accordance with Financial Reporting Standard 104 "Interim Financial Reporting" gives a true and fair view of the assets, liabilities, financial position and profit of the Company, as required by DTR 4.2.10;
- (b) the Half-Year Management Report which comprises the Chairman's Statement, Investment Policy, Investment Review and Investment Portfolio Summary includes a fair review of the information required by DTR 4.2.7, being an indication of the important events that have occurred during the first six months of the financial year and their impact on the condensed set of financial statements;
- (c) a description of the principal risks and uncertainties facing the Company for the remaining six months is set out below, in accordance with DTR 4.2.7; and
- (d) there were no related party transactions in the first six months of the current financial year that are required to be disclosed in accordance with DTR 4.2.8.

Principal risks and uncertainties

In accordance with DTR 4.2.7, the Board confirms, that the principal risks and uncertainties facing the Company have not changed materially since the publication of the Annual Report and Financial Statements for the year ended 31 December 2017. The Board acknowledges that there is regulatory risk and continues to manage the Company's affairs in such a manner as to comply with section 274 of the Income Tax Act 2007.

The principal risks faced by the Company are:

- Economic;
- Loss of approval as a Venture Capital Trust;
- Investment and strategic;
- Regulatory;
- Financial and operating;
- Market;
- Asset liquidity;
- Market liquidity;
- Counterparty; and
- Key staff.

A detailed explanation of these risks can be found in the Strategic Report on pages 21 to 22 and in Note 15 on pages 56 - 63 of the Annual Report and Financial Statements for the year ended 31 December 2017, copies of which are available on the Investment Adviser's website, www.mobeusequity.co.uk or by going direct to: www.migvct.co.uk.

Going concern

The Board has assessed the Company's operation as a going concern. The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the Half-Year Management Report. The Directors have satisfied themselves that the Company continues to maintain a significant cash position. The majority of companies in the portfolio continue to trade profitably and the portfolio taken as a whole remains resilient and well-diversified. The major cash outflows of the Company (namely investments, buy-backs and dividends) are within the Company's control.

The Board's assessment of liquidity risk and details of the Company's policies for managing its capital and financial risks are shown in Notes 15 and 16 on pages 56 - 63 of the Annual Report and Financial Statements for the year ended 31 December 2017. Accordingly, the Directors continue to adopt the going concern basis of accounting in preparing the half-year report and annual financial statements.

Cautionary statement

This report may contain forward looking statements with regards to the financial condition and results of the Company, which are made in the light of current economic and business circumstances. Nothing in this report should be construed as a profit forecast.

For and on behalf of the Board:

Clive Boothman
Chairman

The revenue column of the Income Statement includes all income and expenses. The capital column accounts for the unrealised gains/(losses) and realised gains on investments and the proportion of the Investment Adviser's fee charged to capital.

The total column is the Statement of Total Comprehensive Income of the Company prepared in accordance with Financial Reporting Standards ("FRS"). In order to better reflect the activities of a VCT and in accordance with the 2014 Statement of Recommended Practice ("SORP") updated in January 2017 by the Association of Investment Companies ("AIC"), supplementary information which analyses the Income Statement between items of a revenue and capital nature has been presented alongside the Income Statement. The revenue column of profit attributable to equity shareholders is the measure the Directors believe appropriate in assessing the Company's compliance with certain requirements set out in Section 274 Income Tax Act 2007.

All the items in the above statement derive from continuing operations of the Company. No operations were acquired or discontinued in the period.

Note a: The cancellation of the share premium reserve and capital redemption reserve (as approved at the General Meeting held on 22 February 2014) and by order of the Court dated 12 March 2014) has increased the Company's special distributable reserve. The purpose of this reserve is to fund market purchases of the Company's own shares, write off any existing and future losses and for any other corporate purpose, including dividend distributions. All of this reserve arose from shares issued before 5 April 2014.

Note b: The Realised capital reserve and the Revenue reserve together comprise the Profit and Loss Account of the Company.

Note c: Under the 2017/2018 Offer, 11,155,262 shares were allotted during the period, raising net funds of £7,817,820 for the Company. This figure is net of issue costs of £204,683. Having raised the full amount of funds sought, the Offer was closed on 13 March 2018.

Note d: During the period, the Company purchased 410,037 of its own shares at the prevailing market price for a total cost of £257,469, which were subsequently cancelled. This figure is more than that shown in the Statement of Cash flows by £4,753. This is a net figure arising from a creditor held at the previous year-end of £46,857, which was settled during the period, and a creditor held at this period-end of £51,610, which was settled after the period-end.

Note e: The transfer of £479,428 to the special distributable reserve from the realised capital reserve above is the total of realised losses incurred by the Company this period.

The composition of each of these reserves is explained below:

Called up share capital - The nominal value of shares originally issued increased for subsequent share issues either via an Offer for Subscription or reduced due to shares bought back by the Company.

Capital redemption reserve - The nominal value of shares bought back and cancelled is held in this reserve, so that the Company's capital is maintained.

Share premium reserve - This reserve contains the excess of gross proceeds less issue costs over the nominal value of shares allotted under recent Offers for Subscription.

Revaluation reserve - Increases and decreases in the valuation of investments held at the period-end are accounted for in this reserve, except to the extent that the diminution is deemed permanent.

In accordance with stating all investments at fair value through profit and loss, all such movements through both revaluation and realised capital reserves are shown within the Income Statement for the period.

Special distributable reserve - The cost of share buybacks is charged to this reserve. In addition, any realised losses on the sale or impairment of investments (excluding transaction costs), and 75% of the Investment Adviser fee expense, and the related tax effect, are transferred from the realised capital reserve to this reserve. The cost of any IFA facilitation fee payable as part of the Offer for Subscription is also charged to this reserve.

Realised capital reserve - The following are accounted for in this reserve:

- Gains and losses on realisation of investments;
- Permanent diminution in value of investments;
- Transaction costs incurred in the acquisition of investments;
- 75% of the Investment Adviser fee expense and 100% of any performance incentive fee payable, together with the related tax effect to this reserve in accordance with the policies; and
- Capital dividends paid.

Revenue reserve - Income and expenses that are revenue in nature are accounted for in this reserve together with the related tax effect, as well as income dividends paid that are classified as revenue in nature.

Notes to the Unaudited Condensed Financial Statements for the six months ended 30 June 2018

1. Company information

Mobeus Income and Growth VCT plc is a public limited company incorporated in England, registration number 5153931. The registered office is 30 Haymarket, London, SW1Y 4EX.

2. Basis of preparation of the Financial Statements

These Financial Statements are prepared in accordance with accounting policies consistent with Financial Reporting Standard 102 ("FRS 102"), Financial Reporting Standard 104 ("FRS 104") - Interim Financial Reporting, with the Companies Act 2006 and the 2014 Statement of Recommended Practice, 'Financial Statements of Investment Trust Companies and Venture Capital Trusts' ('the SORP') (updated in January 2017) issued by the Association of Investment Companies ("AIC"). The Financial Statements have been prepared on the historical cost basis except for the modification to a fair value basis for certain financial instruments as specified in note 9.

The Half-Year Report has not been audited, nor has it been reviewed by the Auditor pursuant to the Financial Reporting Council's (FRC) guidance on Review of Interim Financial Information.

3. Principal accounting policies

The accounting policies have been applied consistently throughout the period. Full details of principal accounting policies will be disclosed in the Annual Report, while the policy in respect of investments is included within an outlined box at the top of note 9 on investments.

4. Income

Total Income	1,410,023	1,691,814	3,131,481

5. Investment Adviser's fees

In accordance with the policy statement published under "Management and Administration" in the Company's prospectus dated 9 July 2004, the Directors have charged 75% of the Investment Adviser's fees to the capital reserve. This is in line with the Board's expectation of the long-term split of returns from the investment portfolio of the Company. For further details, see note 4 on page 46 of the 2017 Annual Report and Financial Statements.

With effect from 1 April 2018, the Investment Adviser's fee upon the net funds raised from use of the over-allotment facility of £10 million under the recent Offer has been reduced from 2% to 1% for one year.

6. Taxation

There is a tax charge for the period as the Company has taxable income in excess of deductible expenses.

9. Summary of movement on investments during the period

The most critical estimates, assumptions and judgements relate to the determination of the carrying value of investments at "fair value through profit and loss" (FVTPL). All investments held by the Company are classified as FVTPL and assessed in accordance with the International Private Equity and Venture Capital Valuation ("IPEV") guidelines, as updated in December 2015. This classification is followed as the Company's business is to invest in financial assets with a view to profiting from their total return in the form of capital growth and income.

For investments actively traded on organised financial markets, fair value is generally determined by reference to Stock Exchange market quoted bid prices at the close of business on the balance sheet date. Purchases and sales of quoted investments are recognised on the trade date where a contract of sale exists whose terms require delivery within a time frame determined by the relevant market. Purchases and sales of unlisted investments are recognised when the contract for acquisition or sale becomes unconditional. Where the terms of a disposal state that consideration may be received at some future date and, subject to the conditionality and materiality of the amount of deferred consideration, an estimate of the fair value, discounted for the time value of money may be recognised through the Income Statement. In other cases, the proceeds will only be recognised once the right to receive payment is established and there is no reasonable doubt that payment will be received.

Unquoted investments are stated at fair value by the Directors in accordance with the following rules, which are consistent with the IPEV guidelines:

All investments are held at the price of a recent investment for an appropriate period where there is considered to have been no change in fair value. Where such a basis is no longer considered appropriate, each investment is considered as a whole on a 'unit of account' basis alongside consideration of:

- (i) Where a value is indicated by a material arms-length transaction by an independent third party in the shares of a company, this value will be used.
- (ii) In the absence of i), and depending upon both the subsequent trading performance and investment structure of an investee company, the valuation basis will usually move to either:-
 - a) a multiple basis. The investment may be valued by applying a suitable price-earnings ratio, revenue or gross profit multiple to that company's historic, current or forecast post-tax earnings before interest and amortisation, revenue, or gross profit (the ratio used being based on a comparable sector but the resulting value being adjusted to reflect points of difference identified by the Investment Adviser compared to the sector including, inter alia, a lack of marketability).

or:-

- b) where a company's underperformance against plan indicates a diminution in the value of the investment, provision against cost is made, as appropriate.
- (iii) Premiums, to the extent that they are considered capital in nature and that will be received upon repayment of loan stock investments, are accrued at fair value when the Company receives the right to the premium and when considered recoverable.
- (iv) Where a multiple or cost less impairment basis is not appropriate and overriding factors apply, discounted cash flow or net asset valuation bases may be applied.

Capital gains and losses on investments, whether realised or unrealised, are dealt with in the profit and loss and revaluation reserves and movements in the period are shown in the Income Statement.

All investments are initially recognised and subsequently measured at fair value. Changes in fair value are recognised in the Income Statement.

A key judgement made in applying the above accounting policy relates to investments that are permanently impaired. Where the value of an investment has fallen permanently below cost, the loss is treated as a permanent impairment and as a realised loss, even though the investment is still held. The Board assesses the portfolio for such investments and, after agreement with the Investment Adviser, will agree the values that represent the extent to which an investment has become realised. This is based upon an assessment of objective evidence of that investment's future prospects, to determine whether there is potential for the investment to recover in value.

The methods of fair value measurement are classified into hierarchy based on the reliability of the information used to determine the valuation.

- Level 1 - Fair value is measured based on quoted prices in an active market.
- Level 2 - Fair value is measured based on directly observable current market prices or indirectly being derived from market prices.
- Level 3 - Fair value is measured using valuation techniques using inputs that are not based on observable market data.

Reconciliation to Condensed Statement of Cash Flows

Sales proceeds above of £605,463 are less than that shown in the Condensed Statement of Cash Flows of £4,058,356 by £3,452,893. This amount is cash proceeds arising from the realisation of Gro-Group which was held within debtors at the previous year-end.

There has been no significant change in the risk analysis as disclosed in Note 15 of the Financial Statements in the Company's Annual Report. The decrease in unrealised valuations of the loan stock investments above reflect the changes in the entitlement to loan premiums, and/or in the underlying enterprise value of the investee company. The decrease does not arise from assessments of credit or market risk upon these instruments.

Level 3 unquoted equity and loan investments are valued in accordance with IPEV guidelines as follows:

13. Financial statements for the period ended 30 June 2018

The information for the period ended 30 June 2018 does not comprise statutory accounts within the meaning of Section 434 of the Companies Act 2006. The Financial Statements for the year ended 31 December 2017 have been filed with the Registrar of Companies. The auditor has reported on these Financial Statements and that report was unqualified and did not contain a statement under section 498(2) or (3) of the Companies Act 2006.

14. Half-Year Report

This Half-Year Report will shortly be made available on our website: www.migvct.co.uk and will be circulated by post to those shareholders who have requested copies of the Report. Further copies are available free of charge from the Company's registered office, 30 Haymarket, London, SW1Y 4EX or can be downloaded via the website.

Shareholder Information

Communication with shareholders

We aim to communicate regularly with our shareholders. In addition to the Half-Year and Annual Reports, shareholders receive a twice-yearly VCT newsletter from the Investment Adviser, approved by the Board. The May annual general meeting provides a useful platform for the Board to meet shareholders and exchange views. Your Board welcomes your attendance at general meetings to give you the opportunity to meet your Directors and representatives of the Investment Adviser. The Company releases Interim Management Statements in respect of those quarters where it does not publish half or full year accounts.

The Investment Adviser holds an annual shareholder event. The next event will be held on 5 February 2019 at the Royal Institute of British Architects in Central London.

Shareholders wishing to follow the Company's progress can visit its website at www.migvct.co.uk. The website includes dedicated pages on the Company providing up-to-date details on fund performance and dividends as well as publicly available information on the Company's portfolio of investments and copies of company reports. There is also a link to the London Stock Exchange's website at: www.londonstockexchange.com where shareholders can obtain up to the minute details of the share price and the latest NAV announcements, etc.

Selling your shares

The Company's shares are listed on the London Stock Exchange and as such they can be sold in the same way as any other quoted company through a stockbroker. **However, to ensure that you obtain the best price, shareholders wishing to sell their shares are advised to contact the Company's stockbroker, Panmure Gordon, by telephoning 020 7886 2716/7 before agreeing a price with their stockbroker.** Shareholders are also advised to discuss their individual tax position with their financial adviser before deciding to sell their shares.

Dividends

Shareholders who wish to have dividends paid directly into their bank account rather than sent by cheque to their registered address can complete a mandate for this purpose. Mandates can be updated online by visiting www.investorcentre.co.uk or, alternatively, they can be obtained by contacting the Company's Registrars, Computershare Investor Services PLC at the address given at the end of this section.

Shareholders are encouraged to ensure that the Registrars maintain up-to-date details for them and to check whether they have received and banked all dividends payable to them. This is particularly important if they have recently moved house or changed their bank. We are aware that a number of dividends remain unclaimed by shareholders and whilst we will endeavour to contact you if this is the case, we cannot guarantee that we will be able to do so if the Registrars do not have an up-to-date postal and/or email address for you. You can update your contact details and view any unclaimed dividend payments on the Computershare Investor Centre at www.investorcentre.co.uk.

Common Reporting Standard and Foreign Account Tax Compliance Act (“FATCA”)

With effect from 1 January 2016 new tax legislation under the Organisation for Economic Co-operation and Development Common Reporting Standard for Automatic Exchange of Financial Account Information was introduced. The legislation requires investment trust companies to provide personal information to HMRC on certain investors who purchase their shares. As an affected entity, the Company will have to provide information annually to HMRC on the tax residencies of a number of non-UK based certificated shareholders. All new shareholders, excluding those whose shares are held in CREST, who are entered onto the share register from 1 January 2016 will be asked to provide the relevant information. Additionally, HMRC changed its policy position on the FATCA in June last year. This will mean that as a result of the restricted secondary market in VCT shares the Company’s shares will not be considered to be “regularly traded” which will mean that the Company will also be an affected entity for the purposes of this legislation and as such will have to provide information annually to HMRC on the tax residencies of shareholders who are resident for tax purposes in the United States.

For further information, please see HMRC’s Quick Guide: Automatic Exchange of Information – information for account holders: <https://www.gov.uk/government/publications/exchange-of-information-account-holders>.

Performance Data at 30 June 2018

The following table shows, for all investors in Mobeus Income & Growth VCT plc and the former Matrix Income & Growth 3 VCT plc, how their investment has performed since they were originally allotted shares in each fundraising.

Total return data, which includes cumulative dividends paid to date, is shown on both a share price and a NAV basis as at 30 June 2018. The NAV basis enables shareholders to evaluate more clearly the performance of the Investment Adviser, as it reflects the underlying value of the portfolio at the reporting date. This is the most widely used measure of performance in the VCT sector.
